SKILLS

- C; C++; Java; Python;
- HTML; CSS; JavaScript;
- Mysql; MongoDB; React;
- Linux; Latex; Excel; Office;

PROJECTS

- **College Leave Management System (CLMS)**
 - **Language/Technology:** Python; MySQL
 - The College Leave Management System is built using Python, Kivy, KivyMd, and using MySQL as database, and is demonstrated in college.
 - It attempts to digitize the employee leave process and do away with registry record entry.
 - **Link:** https://github.com/Ahmedtahir372/Uni_Project
- **Portfolio Website**
 - **Language/Technology:** JavaScript, Google Firebase
 - The website for my personal portfolio was created with JavaScript, Bootstrap, HTML, CSS, and Firebase as the database. And it is hosted on my github page.
 - It was intended to provide information about myself and highlight my skills.
